

MT500B-KIT-ELMNT

MT500B DEHYDRATOR FILTER ELEMENT REPLACEMENT KIT

ANDREW FILTER ELEMENT KIT COMPONENTS See product O & M Manual for additional detail

1. Remove the front panel and top panel of the MT500B.
2. For the Durr-Teknik air compressor (finned compressor head) remove and replace the entire filter housing.
3. For the GAST air compressor, (smooth compressor head) remove the outer part of the filter housing and replace the felt filter, or replace the entire filter housing.
4. The filter bowls can be removed with a strap wrench or very carefully with a large wrench through the front opening of the unit.
5. Replace the filter elements on the left hand side with the filter element marked with the number "12" and the filter element marked with the number "4" goes on the right hand side as you face the unit.
