# FL1

FL1000 Fiber Wall Box

CommScope's FL1 indoor fiber termination products include a variety of two door wall mount box configurations. These products are designed specifically to act as part of the fiber distribution system in an enterprise networkcell site backhaul network, or as the demarcation point for the service provider at the customer's location.

FL1 products utilize adapter pack technology, which enables service providers toadd new subscriber connections as needed -deferring unnecessary CAPEX.

Excellent labeling, grommets, door latches and ribbon pigtail routing reinforce the value these products bring to the physical layer of any network with higher quality and reliability, greater operational efficiencies, and network simplification.

Features/Benefits:

- Economical, "build-as-you-grow" solution
- Quick installation
- Compact size
- Durability
- Single Part number ordering
- Single package shipping

Product Classification

Regional Availability	North America
Product Type	Fiber wall box
Product Series	FL1000

General Specifications

Application	Patching | Splicing
Cable Entry Location	Bottom left | Bottom right | Top left | Top right
Color	Putty white
Front Door Type	Single hinged
Interface	LC/APC | LC/UPC | SC/APC | SC/UPC
Mounting	Wall

COMMSCOPE®

FL1

Material Specifications

Finish	Powder coated
Material Type	Steel

Environmental Specifications

Environmental Space	Indoor
Qualification Standards	NEMA type 12

Packaging and Weights

Packaging quantity	1
Packaging Type	Box	Carton
