

CommScope RUCKUS® has the partners, equipment and expertise to improve broadband access and connectivity indoors and out. Our high-speed Wi-Fi networks fit a variety of budgets, performance requirements and deployment scenarios.

TARGET INDUSTRIES

Education

Hospitality MDU

Health care

Government

Regulated industries

OUR OFFERING

Wireless access points (APs)

Indoor and outdoor APs with embedded internet of things (IoT) connectivity

Switches

RUCKUS ICX® stackable switches excel across deployment environments.

Control and management

Cloud management with **RUCKUS Cloud™**, on-premises physical/virtual control with **SmartZone™**, or controller-less with **RUCKUS Unleashed™**

Network analytics

Analytics powered by artificial intelligence and machine learning accelerate troubleshooting.

Secure network access

RUCKUS Cloudpath® provides secure network access for any user and any device.

IoT connectivity

The **RUCKUS IoT Suite** connects Wi-Fi and non-Wi-Fi IoT endpoints with one multi-standards wireless access network.

IN THE FIELD

RUCKUS partnered with Insight Enterprises and SmartWave Technologies to deploy the largest free public Wi-Fi network in the U.S. The high-speed network provides connectivity to more than 30,000 people. Read the [Hidalgo County, Texas, case study](#) to learn more.

WHAT SETS RUCKUS APART

Performance

RUCKUS delivers required network performance to every end user, no matter how challenging the environment. Get the latest [third-party report](#).

Simplicity

Zero-touch provisioning means any new RUCKUS device that's connected will be automatically provisioned with software and policies, including APs and switches.

Adaptability

A single RUCKUS network supports LAN, WLAN and IoT end users. Pre-integrated IoT solutions support smart building, asset tracking, physical safety and user experience applications. Increase capacity without swapping hardware.

Innovation

RUCKUS Analytics provides network intelligence and service assurance.
