

What if you could get the performance of a 1.2 m ValuLine® Antenna in a 1 m design?

You could significantly lower your
total cost of ownership, that's what.

Introducing our new 1 m ValuLine® Vision Antennas

Now you can get performance that's similar to our 1.2 m ValuLine® Antenna in a lighter, smaller antenna design—the new 1 m ValuLine Vision Antennas (VHLP3). So you get the same design expertise plus:

- Lower total cost of ownership
- Minimized risk of interference in the network
- More free space for network expansion
- Lower shipping and inventory costs
- Reduced tower loading and leasing costs

Our microwave products are made from carefully selected raw materials to ensure maximum product life, further reducing maintenance and replacement costs. And four strategically-located manufacturing facilities allow our products to ship faster and reduce your shipping costs even more.

Think of how many 1.2 m antennas in your network could be replaced with the 1 m ValuLine Vision Antenna.

Easy to install and adjust. Built to last. Lower total cost of ownership.

Ensure smoother, faster network deployments from order to install and better prepare for future network expansion with 1 m ValuLine Vision Antennas.

- No side struts required
- Easy to align and adjust
- Gradual, smooth adjustments, even under adverse conditions
- Simplified installation of radio equipment and routing of waveguide and cables is enabled
- 250 km/h survival
- Customized versions for direct mounting of ODU and Hot Stand-By Couplers
- Single- and dual-polarized options available

Get high performance in a smaller, lighter design.
