CommAlert®

	<p>*To comply with data protection requirements in the EU, the CommAlert Line is set up to address only those issues relating to accounting/auditing practices and other company financial matters. Other concerns should be reported to a member of management or through other established reporting channels such as Human Resources. The CommAlert Line representative can help direct you in this regard. To comply with the European Union requirements, any person who is alleged by a CommAlert caller to have violated a company financial policy or practice will be notified, as the investigation permits, by CommScope personnel that he or she was the subject of a CommAlert report. He or she will also be notified of the nature and extent of the reported misconduct. However, CommScope will not provide the individual with the name or other information about the caller.</p>
