

CommScope High-Density Front-Loading Cable Manager Shallow

Announcement: New Product

Global Communication

CommScope® announces the release of the CommScope High-Density Front-Loading Cable Manager Shallow. This cable manager is a shorter version of the Y-1671495-X and is designed to fit in any existing cabinet in the market.

- Offers bend radius (according to ISO/IES 11801:2002 table 25) and mechanical protection
- Rubber entry/exit retainers ensure cable captivity preventing accidental disturbance of patch cords
- Suitable for Twisted Pair & Fiber Optic patch cords
