

FlexWave™ Prism AWS-3 High Density Module: New Product

NAR Communication

CommScope has released a new FlexWave Prism High density Module (HDM) supporting AWS-3. The new HDM supports MIMO and transmits at 20 watts. The AWS-3 release will include a Host DART for Prism applications and a remote DART that will be used for Host to Host application. The AWS-3 feature is an enhancement to the existing AWS HDM and will still support AWS spectrum.

AWS-3 20W HDM

- Supports MIMO
- 20 watts per RF path
- Supports DL 2110MHz-2180MHz, UL 1710MHz-1780MHz
- Includes Host DARTs and Remote DARTs

Ordering Information:

FlexWave Prism AWS-3

Part Number	Description
FWP-Z4MT000MOD	PRISM, 20W AWS-3, MIMO, HDM
FWU-Z6000HUDART	AWS-3 Single SuperDART
FWU-ZS000HUDART	AWS-3 Dual SuperDART
FWP-Z6000RUDART	AWS-3 Remote SuperDART
