

# CDIU Approved with Nokia AirScale BBU: New Product

## North America

The CPRI Digital Interface Unit (CDIU) that provides a direct CPRI interface to the FlexWave Prism and Spectrum product lines is now compatible with the Nokia AirScale BBU. The CDIU card is partnership between CommScope and Nokia for intergration of the Nokia AirScale BBU and the CommScope FlexWave DAS through a direct CPRI connection.

All customers deploying the Nokia AirScale BBU for use with CDIU and a FlexWave DAS must meet the following requirements:

- System software for the FlexWave DAS must be at release 9.0.2.X or later (e.g. 9.0.2.16, 9.03.7, etc.).
  - The CDIU software version reported to the BBU may be different then the FlexWave system software but both should be 9.0.2.x or later.
- System Software for Nokia AirScale BBU must be at release FL17A.

### Support Information:

For assistance or questions about upgrading the FlexWave DAS to release 9.0.2.X or later please contact CommScope technical support.
