

Small Cell Pole Mounting Solutions: New Product

Announcing the release of a new line of products for pole mounting of small cell antennas:

Small Cell Pole-Top Mounts

Small Cell Pole-Top Mounts are available in two configurations. One version is designed to be directly mounted to the top of Amron 12" poles. The second version features two foot long stand off brackets which can be banded to fit wood or metal poles from 8" to 11" OD.

Small Cell Side Mounts

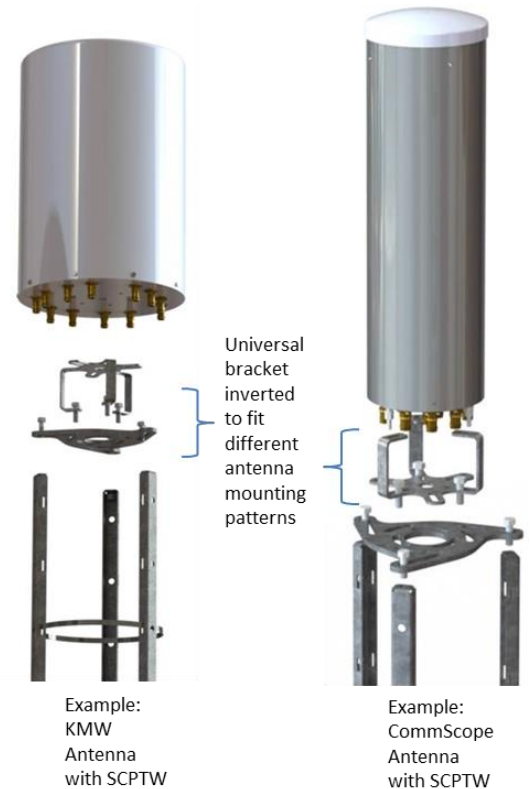

Small Cell Side Mounts are designed to be thru mounted to the side of wood or metal poles up to 13" OD. They are available in three different stand off lengths and each version offers multiple antenna mounting locations to adjust the antenna distance from the pole.

Universal Mounting Brackets

Both the Small Cell Pole-Top Mounts and the Small Cell Side Mounts feature CommScope's new patent pending Universal Mounting Brackets which are compatible with antennas from multiple antenna manufacturers.

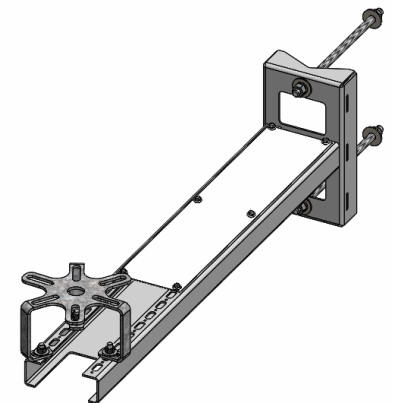

Ordering Information:

Part Number	Description
SCPT	Small Cell Pole Top Mount – Direct Mount to Amron Poles
SCPTW	Small Cell Pole Top Mount – with Stand off Bracket for 8" to 11" OD Poles
SCSM2	Small Cell Side Mount with 24" Stand off
