

SLX Category 6 shielded jack launch with new color options

AMP-TWIST SLX-Series Modular Jack, category 6, shielded, 4 pair, for shielded cables, rear exit, with and without dust cover
EMEA, APAC and CALA Communication

CommScope is pleased to announce the release of the Category 6 SLX Shielded Jack. The new SLX jack builds on the industry leading features of the existing AMP-TWIST shielded SL jacks. Support for a wide range of color options and built-in support for dust covers. Termination is done via the existing SL termination tool with Direct Screen Termination support making screen termination simple and secure. This jack supports AWG 22-26 solid and AWG 24-26 stranded cable.

The SLX Cat 6 jack has been externally verified to meet Category 6 component compliance ISO/IEC 11801-1 Ed.1.0 (2017-11).

This jack will replace all NETCONNECT® shielded Category 6 SL jacks therefore simplifying the NETCONNECT® shielded portfolio. The key features of the SLX Cat 6 jack include:

- Fits all existing SL panels and faceplates
- Universal latch for SL and Keystone series
- Thin profile - Available for Hi Density application
- 9 Different color options – Replaceable color caps
- Terminated with SL Series termination tool
- Wire holder cut off during termination
- Universal wiring label
- Easy re-termination

As the new SLX Cat 6 jacks are interoperable with the planned discontinued SL jacks, and provide the same form and fit, there is no requirement to return any stocked parts to CommScope.

New Available MIDs

Part Number	Description	Package
2153448-1	AMP-TWIST SLX, 6S Jack Almond without Dustcover	Individual bag 24/box
