

Environmentally Friendly Trunk Reel Wrap: New Product

CommScope is committed to helping the environment by providing packaging that equates to less waste to our customers. As a result of the Trunk package improvement initiative, P3 and QR products are now moving from a taped plastic wrap to a new cling wrap.

Benefits Include:

- Thinner wrap is 67% lighter by weight. This equates to a reduction of over 35,000 lbs. in waste per year!
- Improved recyclability (New wrap is LLDPE category 4 vs old wrap was HDPE category 2)
- Eliminates the need for tape to keep wrap in place
- UV stable, will not fade
- Cleaner, more appealing appearance
