

Compact Modular Cabinet: New Product

Announcing the release of the Compact Modular Cabinet for protecting our customers' equipment housing needs. Our Compact Modular Cabinet solutions are designed to keep equipment secure, properly cooled, and in a compact footprint. A successful deployment needs all three, and CommScope has a long history of delivering everything in one package.

- **The right size. The right capabilities. The right choice for your next site deployment.** There's an efficient new way to deploy and secure site equipment at the bottom of the tower. Compact Modular Cabinet offers revolutionary flexibility in configuration, cooling, power, and battery backup. Its unique modular stacking and flexible design accommodate all your site equipment—in the most compact footprint and economical form factor we've ever created.
- **Configured to meet your needs.** The Compact Modular Cabinet offers a wide range of selectable features—not only in rack space, but in equipment configuration, power distribution, cooling options, mounting methods and other factors. It's never been easier to ensure your equipment cabinet provides optimal performance for each site's unique needs.
- **Modular design means configuration flexibility and faster installation.** Easily select and optimize power, equipment, and battery configurations to meet your specific requirements. Streamline installation with generous access openings, multiple knockout I/O options, and mounting kit options for pad, pole, H-frame, and wall.
- **Stackable architecture means better space utilization.** The modular design of the Compact Modular Cabinet allows for space-saving stacking of cabinets—letting your site grow capacity without growing your equipment footprint. Build up instead of out, and the sky is literally the limit.

Ordering Information:

Part Number	Description	Rack Units
08B0-Px-A00D00	CMC-8 Equipment Direct Air Cooling Empty Micro Cell Site Cabinet	8
14B0-Px-A00D00	CMC-14 Equipment Direct Air Cooling Empty Micro Cell Site Cabinet	14
21B0-Tx-A00D00	CMC-21 Equipment Thermosiphon Empty Micro Cell Site Cabinet	21
28B0-Tx-A00D00	CMC-28 Equipment Thermosiphon Empty Micro Cell Site Cabinet	28
