

Expanded Optical Fiber Distribution Closure (OFDC) Portfolio: New Product

CommScope offers the industry's most versatile outdoor fiber distribution closure (OFDC) family. Including three different series, the OFDC family accepts a wide range of distribution and drop cables thus responding to virtually all applications requirements. Each series has a common housing that can be configured to handle different connectivity solutions, such as splice-only, pre-connectorized drop cables, and field-installable connectors (FIC)—significantly simplifying training. Modularly built, it allows easy integration of optical components, even at later deployment stages, and easy pass-through cabling. Advanced gel sealing technology ensures fast and easy field handling without a need for special tools.

OFDC A4 Series

- Compact design
- Separate zones for looped cable storage, splicing and patching to drop cables
- Individual access to drop cable connection area
- Housing designed for wraparound drop cable installation, enabling faster deployments
- Entire fiber management section can be removed from closure body
- Modular splice holders compatible with SMOUV
- Suitable for housing field-installable optical components
- No special installation tools required
- Under- and above-ground installation—pole, strand, wall and pedestal
- IP68 2-meter water head

OFDC B8G Series

OFDC C12 Series
