# Horizontal Cable Management Kit Instructions

1. General product information

The horizontal cable management kits are installed on a 19-inch (483mm) wide industry standard rack above or below panels to organize patch cables. The kits are available in 1U- and 2U-height, black and white version. The units include covers that can be opened from the top, the bottom, or removed altogether. The cable managers have a pass-through feature, which allows access to and from the rear for additional cable routing. The units are 4.1 inches (104mm) deep from front to back with the cover closed. Ordering information is listed below:

3. Tools required

Phillips head screwdriver

4. Parts List

Verify parts against the parts list below:

Quantity	Description
1	Horizontal trough unit
1	Horizontal trough cover
1	Mounting screws, 12-24 x 0.5”

5. Installation steps

1. Mount horizontal cable manager unit to a 19-inch rack using the four 12-24 screws provided (see figure above).
2. Install a cover on horizontal cable manager unit by positioning either the bottom two or the top two cover retaining latches.
3. Repeat this step for the other two latches until the cover is secured.
