WIRELESS DESIGN

Design with confidence.

Transforming the way enterprise Wi-Fi networks are designed.

What we do.

Ekahau enables the designing of wireless networks simpler and smarter.

As a pioneer in the Wi-Fi industry, Ekahau was the first to develop and introduce the original enterprise-grade site survey and planner tool. Our proprietary software and hardware solutions design and manage superior wireless networks by minimizing network deployment time and ensuring sufficient wireless coverage across all industries, project sizes, building infrastructures and levels of complexity.
