

RUCKUS UNLEASHED™

The Controller-less Access Point Solution for SMB

FAST AND RELIABLE WI-FI

- Deliver a fast and reliable Wi-Fi experience to your customers
- Safeguard client connectivity and productivity with smart redundancy in case of a fail over
- Keep Wi-Fi available even during broadband downtime
- Leverage best-in-class RF performance with BeamFlex+, PD-MRC, and ChannelFly

MANAGE WITH EASE

- Easily deploy up to 50 access points with little to no IT personnel
- Deploy a seamless wireless experience with Hotspot/WISPr in minutes
- Quickly and securely on board users to guest network with guest pass, email or SMS
- Engage users through Social Wi-Fi login such as Facebook, Google+, and Twitter

INVESTMENT PROTECTION

- Eliminate costs and license fees associated with a controller architecture
- Scale your business with an easy migration to Ruckus Cloud Wi-Fi or SmartZone
