

653694 Revision C, October 2016

QUICK START GUIDE RET-MASTER

- 1. Charge the Battery.** Connect the RET-Master Power Supply to an AC Outlet. Normally the battery will fully charge in less than three hours.
Note: To charge the battery after a long period of non-use, plug in the charger until the charge led turns green, then unplug the charger and plug it back in again. The battery may take 5 to 6 full discharge/charge cycles to regain full capacity after an extended period of non-use.
- 2. Download the App.** Download the free app “RET-Master” from the Apple Store, for an Apple device or from the Google Play Store for an android device.
- 3. Turn on the power to the RET-Master.**

- 4. Connect your MOBILE device to the RET-Master Wi-Fi.** In your settings Menu, select the Wi-Fi SSID that begins with “RM”, as shown below.

(Continued on page 2)

(Continued from page 1)

5. Open the RET-Master Application.

The user will be prompted to install any new versions of the app if they exist.

6. Select the “Help” tab to view the RET-Master Operations Manual. (On smaller displays, “Help” will be under the “More” tab.)

7. Connect AISG devices to the female AISG port, as shown below.

8. Select Find Devices when ready.

SAFETY NOTICE

The installation, maintenance, or removal of an antenna requires qualified, experienced personnel. CommScope installation instructions are written for such installation personnel. Antenna systems should be inspected once a year by qualified personnel to verify proper installation, maintenance, and condition of equipment.

CommScope disclaims any liability or responsibility for the results of improper or unsafe installation practices.

It is recommended that transmit power be turned off when the field installation is performed. Follow all applicable safety precautions as shown on this page.

Do not install near power lines. Power lines, telephone lines, and guy wires look the same. Assume any wire or line can electrocute you.

Do not install on a wet or windy day or when lightning or thunder is in the area. Do not use metal ladder.

Wear shoes with rubber soles and heels. Wear protective clothing including a long-sleeved shirt and rubber gloves.
