

MT500A-KIT-OVRHL

Overhaul Kit

COMPRESSOR OVERHAUL

Compressor

1. The compressor overhaul can be performed without removing the compressor from the unit.
2. Refer to the compressor manufacture instruction provided in the compressor overhaul kit.

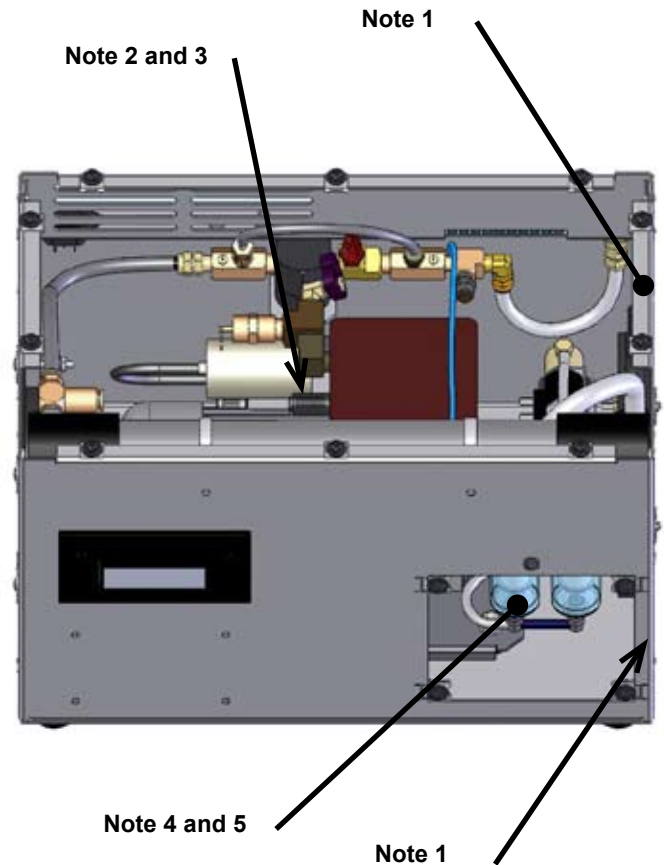

MT500A-KIT-OVRHL
Overhaul Kit

.01 Micron Filter
 Marked with a blue dot
 on element.
 qty 2

1. Remove the front panel and top panel of the MT500A.
2. Twist the outer cover of the compressor air intake filter housing until it can slide off.
3. Replace the air intake filter.
4. The filter bowls can be removed with a strap wrench or very carefully with a large wrench through the front opening of the unit.
5. Replace the filter elements on the left hand side with the unmarked filter element and the filter element marked with the blue dot goes on the right hand side as you face the unit.
