

Product Technical update SYSTIMAX MP100E Series Outlet

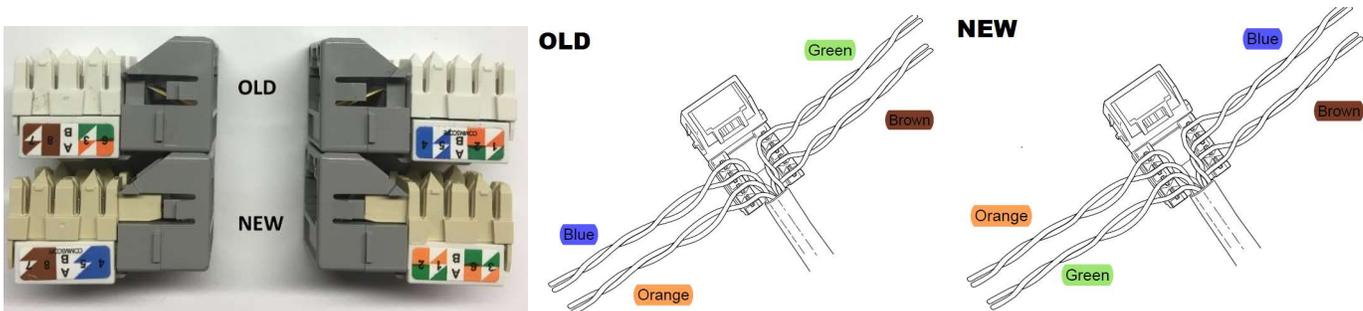

The **CommScope®** MPS100E Series outlets support Category 5e applications and are available in a variety of colors. These products are modular RJ45 to insulation displacement connectors (IDC). They are typically installed in faceplates at work locations and provide termination for the horizontal 4-pair cable at the IDC end, and workstation cord insertion at the RJ45 end.

Commscope have modified the outlet termination scheme to match other Systimax outlets and so align the MPS100E with the MGS400 and the MGS600.

There are also some minor cosmetic changes to the look of the product. The performance, fit and form remains unchanged.

The change to outlet termination is shown below, Assuming T568B wiring terminations.

This is a running change and no new part numbers will be issued. The new wiring scheme is clearly shown on the product.

To aid in identifying new product, a pink sticker has been placed on outside of all boxes containing new style MPS100E outlets.

MPS100E Parts impacted

Material ID	Product Number	Description
108232695	MPS100E-BK	Cat 5e Outlet
108232703	MPS100E-OR	Cat 5e Outlet
108232711	MPS100E-YL	Cat 5e Outlet
108480484	MPS100E-CM	Cat 5e Outlet
108232729	MPS100E-GR	Cat 5e Outlet
108232737	MPS100E-IV	Cat 5e Outlet
108232745	MPS100E-WH	Cat 5e Outlet
108232752	MPS100E-GY	Cat 5e Outlet
108232760	MPS100E-RD	Cat 5e Outlet
108232778	MPS100E-BL	Cat 5e Outlet
108232726	MPS100E-VL	Cat 5e Outlet
