

OC-ADP

Base Product

Fiber Optic Adapter

- High quality zirconia ceramic split sleeves ensuring high precision alignment, reliability and improved reconnect ability
- Translucent easy grip dust cap and integrated mounting clips
- High quality one piece housing, no ultrasonic welding

Product Classification

Regional Availability	Asia Australia/New Zealand EMEA Latin America North America
Product Type	Fiber adapter
Product Series	OC-ADP

General Specifications

Transmission Standards	IEC 60754-1 IEC 61300-3-42
-------------------------------	------------------------------

Material Specifications

Alignment Sleeve Material	Ceramic
----------------------------------	---------

Environmental Specifications

Operating Temperature	-40 °C to +70 °C (-40 °F to +158 °F)
------------------------------	--------------------------------------

Packaging and Weights

Packaging Type	Bag
-----------------------	-----
