

Simplify and innovate everywhere it matters

OWN leadership

Farid Firouzbakht
SVP/President

Mike Wolfe
Chief Technology Officer

Mike Guerin
SVP/GM Structures & Connectivity

Farid Firouzbakht (acting)
SVP/GM RF & Power solutions, and International Sales

Jerry Dziki
VP, Sales, Americas

CommScope OWN is one of four business segments operated by CommScope. Our mission is to simplify and innovate everywhere it matters to help the mobile ecosystem build today's and tomorrow's sustainable networks—and to do it faster and smarter.

As technologies evolve, standards advance, and demand keeps growing, our commitment to delivering highly customizable, cutting-edge macro cellular and small cell network infrastructure guides our innovation and manufacturing as it has for over 85 years*.

With 5G networks coming into their own, we are already designing for the generations still to come. Our mobile network operator customers can count on CommScope OWN to continue to find better ways to build solutions that connect more people while consuming less to reduce environmental impact.

At OWN we make “everything but the radio” to offer our customers a complete end-to-end RF portfolio that provides CommScope quality and reliability across the RF path.

pieces of equipment
produced in the past 5 years

841
pending patent applications

HELIAX®
the name for connectivity
since 1937

*Andrew® corporation was founded in 1937 and acquired by CommScope in 2007

We simplify and drive innovation across essential areas, to help the mobile eco-system:

- Expand coverage and capacity with high-efficiency, small-footprint solutions
- Streamline deployments of fiber and power infrastructure for a more flexible network
- Build greener, more efficient networks with smarter power solutions
- Count on customized solutions and service, from street level to the tower top

OWN major brands include:

- **MOSAIC[®]** antenna platform combines passive and active to smooth 5G network growth—[learn more](#)
- **SEED[™]** high efficiency BSA technology—[learn more](#)
- **HELIAX[®]** portfolio of easy-installing, TCO-lowering RF cabling and connector solutions—[learn more](#)
- **ValuLine[®]** microwave antennas that combine high capacity and economical operation—[learn more](#)
- **PowerShift[®]** intelligent power delivery for macro and small cell networks— [learn more](#)
- **PIM-Guard[®]** PIM mitigating cable management system featuring SnapTak[™] hangers—[learn more](#)

Transparent sustainability, scientifically quantified

OWN's Green Agenda combines our four-pillar guiding principles throughout the entire planning, production and lifecycle of their products and summarizes our commitment, goals and achievements.

Our Sustainability Value Score (SVScore[™]) is a demonstrated, documented, data-based measurement of a specific product's sustainability advantages as quantified across four key metrics, measured on a scale from 1 to 10, with 10 being the highest value.

In this eBook, we lean on our innovation and expertise from over 85 years in the outdoor wireless networks industry.
