

# VTRANSXKC-11W-4

---

Dual-polarized output transition for HX, USX & SHPX4 antennas, 10.00 - 11.70 GHz, PDR100 flanges

## Product Classification

**Product Type** Output transition kit

## General Specifications

**Polarization** Dual

## Electrical Specifications

**Operating Frequency Band** 10.000 – 11.700 GHz

## Packaging and Weights

**Included** Flange hardware kit | OMT hardware kit | OMT transition

## \* Footnotes

**Operating Frequency Band** Bands correspond with CCIR recommendations or common allocations used throughout the world. Other ranges can be accommodated on special order.
